

## JASON PARKER COUNCE

JASON PARKER COUNCE DESIGNS

### WHAT IS YOUR SPECIALTY?

Interior Design and Events

### WHY CHOOSE YOU?

I believe an interior designer must respond to all of the needs of human beings: aesthetic, spiritual, physical, social and cultural. I am a native Nashvillian and respected "Lifestyle Designer" who offers an unparalleled range of design services that blend special event savvy and cutting edge design.

### WHY YOU WENT INTO THIS BUSINESS?

I was told at an early age that I had the "gift of design"... I followed my heart and do what I truly enjoy by being an interior designer and artist.

### BEST DESIGN ADVICE:

Expressing design in so many ways is my forte' whether working on an antebellum home or a high-rise loft. I feel that my "Best Design" is one that the client likes and expresses their life and lifestyle—whether it be a residential home or commercial building.

### FAVORITE QUOTE:

"In all things make it simple!" Life right now in the world is too complicated: why not relax, return to a beautiful home and spend more time with our families and friends. I like to say that anyone can have a designer! I just think I am the one that keeps it simple and gets the job done right the first time.

### FINAL THOUGHTS:

When looking for someone with an eye for design or event (whether it is just paint or a small dinner party) I am the guy you need. I have over twenty years experience and cater to all peoples needs! Expressing lifestyles, experiences and personal aesthetic through interiors is my main objective. Dedication to supporting individual style and desires enables me to accomplish the goals of my clients. As an independent designer focusing on Interior, Event, and Design I believe that your life should be lived; your environment is where it should be enjoyed. I don't just create interiors, I help clients create memories. I have expertise in ensuring clients' design visions are fully realized either in a home or corporate setting.
